Professor A. Primrose,

University of Toronto.

My dear Dr. Primrose:

In the estimates there is a vacancy of an Assistantship through the death of Dr. Malloch. Do you not think that we should give some recognition to Colonel Roberts ? Professor Hutson has recommended Colonel Soudry for an Associate Professorship, and I think it would be well, if you so decide, after consultation with Professor Cameron, that Roberts might take the place of Malloch.

Yours sincerely,

President.
